EUROKOS
GENERAL CONSTRUCTION

About us

The company Eurokos was established in Prishtina in year 2000, specialized in high and low construction. Since its inception, it continuously grew and today is considered one of the biggest construction companies in the country with staff number over 300.

In 2006, Eurokos expended its business activities across the border i.e. in Albania and Macedonia.

In 2009, Eurokos started new business activity related to renewable energy.

PRODUCTION

The "Eurokos" shpk company is dealing with production and marketing of concrete stone, which has three crushers and two concrete plants.

Static crushes 120m³/h

Mobile Crusher 80m³/h

Mobile Crusher 60m³/h

Static Concrete Plant 80m³/h

Static Concrete Plant 50m³/h

M A R B L E

BMI

Balkan Marble Industries Ltd.

Welcome to Balkan Marble Industries Ltd. (BMI), extra white marble quarry.

Balkan Marble Industries Ltd. (BMI) was formed in 2007 and has signed two concession contracts with the Macedonian Ministry of Economy for the exploitation of white marble situated in the locality of Veprcani village in the greater area of the city of Prilep. Both concession contracts are valid until 2026, with the option or extension for an additional period of 20 years.

The area of Prilep is known from the ancient years for its superior crystallized white marble.

Total concession area covers 5.5km², making it one of the world's biggest concessions exploited by a single company. Quarry is located at 40km of road distance to Prilep town, the distance between quarry and Thessaloniki port, Greece is about 200km.

Pumped Storage Hydropower Plant

250 MW Drini

Project Location:	Kosovo, Prizren Municipality, Near Zhur Village
Type:	Pump Storage Hydropower Plant
Installed Power:	250 MW
Design Turbine Flow:	32.7 m ³ /s
Design Pump Flow:	23.7 m ³ /s
Net Head.	924 m
Generating Energy:	Turbine Mode 2555 hours, 638'750 Mwh
Spent Energy:	Pump Mode 3467 hours, 866'750 MWh

ECODRI 9.6 MW

The project HPP ECODRI is planned to be at the river called "Drini i Bardhe". It is within the glance of the water of Fierza Lake. The zone of the project is located in the West of Kosovo, close to the village Dobrusha, municipality of Prizren. HPP will have the capacity of N=9650kW with the yearly production of E=39.0Gwh. Its dam is going to be constructed about 300 m before the water enters the valley of Vermica and about 4.5 km before entering into the territory of Albania.
